

What if it rained shoes?

What if . . . ?

IMAGINE STRANGE THINGS HAPPENING IN THE WORLD

Artists love to ask the question “What if...?” It allows them to use their imagination and see things in totally new ways. It's a game that anyone can play. Choose a “What if” from the following list and then draw a picture or create a photo montage showing how life on earth would be changed by this new condition. What if...

it rained tennis shoes everyday? everyone looked the same? animals had people for pets? you had a dragon for a next door neighbor? cows could fly? Picasso had painted the Mona Lisa? people were magnetic? everyone lived on their own island? the earth was buffeted by constant 100 mph winds? the oceans were made of chocolate pudding? everyday at 2:00 PM gravity went haywire for twenty minutes? nothing could be thrown away? works of art came to life? all the art in the world was stolen by aliens? everyone looked the same?

Want to Do More? Write a short story to go along with your “What if” illustration. Create an artist book based on your “What if.” Make up your own “What if” to ponder and illustrate.
